REPORT OF SCHOOL BOARD.

Thirty-six weeks of school have been maintained for the past year, as for several years, except at the Hill, where the opening of the winter term was deferred one week because of the delayed arrival of the new teacher.

While the condition of the treasury shows a balance on hand of \$321.12, there are valid claims against the district of \$250.31, which stand unpaid, because no money had been appropriated for those purposes by the district. This amount concerns the matter of Pembroke pupils attending the Concord High School, relative to which a suit was pending, as was stated in our last report. Of it, \$42.68 represents the costs assessed, \$75, the bill of the counsel of the district, and the balance, \$132.63, for tuition. As no money was raised or appropriated at the last meeting, except what is required by law, and that must, under the law, be devoted "to the sole purpose of maintaining public schools within the town," there will be need of making provision for these bills at the coming annual meeting, articles for which purpose appear in the warrant. At the meeting of 1905, when the vote upon this matter was taken, \$175 was raised and appropriated to meet such tuition expense "if legal." The only course open to the board to determine if such payment would be legal was to get the advice of the attorney-general. Such advice was, in effect, that the action was not legal, and the money should not be paid.

Almon F. Burbank brought suit for the payment on account of his daughter. The decision was rendered last May, and the order was made to pay the tuition. The decision did not settle the question whether the district could legally vote to pay tuition of its pupils elsewhere, when making a contract with a private school, under the law. The order to pay the tuition was based upon the reasoning that under the conditions, the two separate votes—as to contract and payment of tuition

elsewhere—should be taken as one. If the latter action was illegal, then the whole was nullified, and the tuition would need be paid under the general law; if that action was legal, then it would be paid because it was so voted.

Immediately upon receiving the decision, the board applied the appropriation of \$175 to refunding to the parents the payment of the tuition for the town school year ending March, 1906, as follows: \$12.63 to Dr. George F. Munsey, for one term; \$40 each to A. F. Burbank, Charles A. Seavey, Eugene Lane and Charles B. Whittemore for a full year—a total of \$172.63, leaving a balance of \$2.37. There still remained due \$12.63 to each of the last four named for the spring term of 1906, for which there was no appropriation. The costs assessed in the suit of \$42.68, due Mr. Burbank, could not be paid from any money in the treasury, as we were advised by counsel, and which seemed clear. Counsel so stated to Mr. Burbank and he was asked to let the matter rest until money to meet it could be duly appropriated, as was clear it must be. His answer was an ultimatum that if he was not paid in full before an early date, definitely named, he would proceed to levy upon the property of the district, and collect.

Wishing to save the district the heavy cost of such proceedings, involving so small a sum, a member of the board advanced the \$55.31, costs and tuition—and still holds the claim against the district, without interest. Messrs. Lane and Seavey likewise demanded the immediate refunding of tuition paid by them, and with the same purpose, \$12.63 was paid to each of them and the claim is similarly held against the district. Mr. Whittemore cheerfully agreed to wait until the money could be appropriated by the district for his \$12.63, as have the authorities of the Concord High School for the two succeeding terms, amounting to \$82.11.

If the arrangement shall be continued, money will need be specially appropriated in addition for the ensuing year.

The contract with Pembroke Academy will expire the present month, and an article has been inserted in the warrant to act upon the subject of renewing the relationship.

There are also articles in the warrant, at the request of Sun-

cook residents, reviving the subject of different school accommodations at Suncook village. The subject was brought up three years ago, referred to a special committee of which a majority were Suncook residents, and an adjourned meeting held to receive their report. It was to refer the subject to the next annual meeting, and when there presented, was indefinitely postponed. Since then new hardwood floors have been put into the two rooms not thus equipped, the woodwork throughout the building revarnished and other improvements been made at a cost of about \$200. Within ten years, more than \$1,200 has been expended for the improvement of this building, under votes of the district.

No one now disputes the unfortunate location of the building when built. It is more comfortable and convenient now than at any previous time in its history. Considering this fact, and the probable uses to which it could be put, it seems to the school board, as it seemed to the special committee that carefully inspected the building three years ago, as too good a building to be abandoned, viewed from the standpoint of public economy. It is a well-understood fact that the cost of building is exceptionally high at the present time, much more so than two years ago even.

The matter of a steam heating plant in that building, located as it is on a ledge, where the conditions are such as to make it impossible to keep the temperature of the basement above the freezing point in extreme weather, without artificial heat, if at all, should be given most careful consideration, before being ordered. We estimate the increased cost of maintenance alone, with steam heat over wood heating as at present, as at least \$350 a year.

The board earnestly favors the acquiring of ample playgrounds near the present building, if its use is continued,—an improvement that could be probably disposed of at no great loss, when the time shall come that the abandonment of the present school building shall be economically defensible.

Such repairs have been made upon the several school buildings during the year as would continue their preservation. The unused building at the Borough should be shingled the coming year. The Veterans donated \$5.00 from their funds for deco-

rative purposes, towards the erection of a new flagpole at Suncook and the Daughters of Veterans of Concord, through Miss Helen Ayers presented that building a handsome silk flag for interior use, at the Memorial Day exercises, both of which considerate remembrances are gratefully acknowledged.

The supervisory district, of which Pembroke is one of the three town districts forming it, has continued Leon O. Merrill as superintendent. He has conscientiously devoted his efforts to the work.

The graduation of the ninth grade pupils was publicly observed last June in Thompson Hall, and the exercises most creditably given. The programme is printed elsewhere. In connection with it, was an exhibition of school work of all grades, which called forth heartiest commendation from parents and friends. A similar display was made in early winter.

The school census required by law was taken by Frank T. Cheney, who reported as follows:

Whole number of pupils between 6 and 16,	589
Number in public schools,	213
Number in parochial schools,	234
Number employed,	46
Number at home,	96

Number of boys, 302; number of girls, 287.

The statistical tables which follow, give much detailed information as to the prudential affairs of the district and of them we invite your study.

Respectfully submitted,

TRUMAN GILSON,
GEORGE W. FOWLER,
GEORGE H. COLBY,

School Board.
